

INTERNATIONAL CONFERENCE ON WIRELESS COMMUNICATION

8th-9th October, 2021

Organised by
**Department of Electronics and Telecommunication Engineering,
D. J. Sanghvi College of Engineering, Mumbai, India.**

About ICWiCOM 2021

ICWiCOM is being organised with a view to cultivate research activities in the field of Wireless Communication at our institute. The conference will bring in eminent personalities from various areas of Wireless Communication on a common platform.

Interactions during the conference are expected to open up many research areas for upcoming Post-graduate & Doctoral students as well.

The proceedings of the conference will be published in book series "Lecture notes on data engineering and communications technologies".

Important Dates

Paper submission through Easy Chair :
1st May, 2021
The papers are to be uploaded through EasyChair using the following link:
<https://easychair.org/conferences/?conf=icwicom2021>

Acceptance Notification : 30th June, 2021
Registration Deadline : 15th July, 2021

General Chair

Dr. Hari Vasudevan
Principal, DJSCE

Dr. Manali J. Godse
Vice-Principal (Academics), DJSCE

General Co-Chair

Dr. Amit A. Deshmukh
Professor & Head, Dept. of EXTC, DJSCE

Conference Chair

Dr. Amit A. Deshmukh
Professor & Head, Dept. of EXTC, DJSCE

Topics Covered

Microwave & Antennas

Antenna Theory
Antenna Arrays
Conformal Antennas
Microstrip Antennas
Artificial Magnetic Conductors

Fractal Antennas
Frequency Selective Surfaces

Electromagnetic Numerical Techniques

Millimeter-wave/Terahertz Communications

Radar Systems

UWB Communications

Antennas in MIMO

Nanotechnology

MEMS

Wireless Communication/Networking

Mobile Ad-hoc & Sensor Networks
Channel Modelling & Characterization
Pervasive & Ubiquitous Computing
Wireless Sensor Network

Cognitive Radio Network & Applications

Next-Generation Network
Network Protocol & Congestion Control
QoS, Reliability & Performance Modelling

Heterogeneous Wireless Network
Mobile Computing System
Self-Organizing Network

Software Defined Radio

Signal Processing

Signal Processing for Wireless Communications

Multimedia Communications

Artificial Intelligence in Wireless Network

Computer Vision

Pattern Analysis & Classification

Large Dimensional Signal Processing

Wireless Telemedicine & e-Health Services
